DETAILED ACTION

CLAIMS PRESENTED

Claims 11-16 are presented.

Claims 11-16 are rejected as in the earlier Office Action.

Response to Arguments

Applicant argued that the rejection of claim 11 (and claims 12, 13 which depend from claim 11) is contradicted by rejection of claim 14. A reasonable reading of the rejection of claim 14 would be that the particular details of claim 14 that is not found in claim 11 is not taught by the reference used to reject claim 11. Thus, Applicant's argument is not deemed persuasive.

Applicant argued that a reading of the references can result in a combination that would not teach claim 14. In response to applicant's argument, the fact that applicant has recognized another advantage which would flow naturally from following the suggestion of the prior art cannot be the basis for patentability when the differences would otherwise be obvious. See *Ex parte Obiaya*, 227 USPQ 58, 60 (Bd. Pat. App. & Inter. 1985). In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re*

Art Unit: 2134

Jones, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, the test for obviousness is not whether the features of a secondary reference may be bodily incorporated into the structure of the primary reference; nor is it that the claimed invention must be expressly suggested in any one or all of the references. Rather, the test is what the combined teachings of the references would have suggested to those of ordinary skill in the art. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981).

Regarding other claims, note the section on Claim Rejections.

CLAIM REJECTIONS

The claim rejections can be found in the earlier Office Action.

Applicant, at the last two paragraphs of page 2 of the Response filed by Applicant, states that he requires some assistance in understanding the issue of which claims were rejected on which bases. The claims were rejected on the bases that would be clear to those who would read the Office Action in a reasonable fashion. Regarding claim 14, the claim was rejected using Devine patent as well as the other references. Regarding claims 15, 16, they were rejected with the same references as that of claims 12, 13. The word "correspond", which was noted at the last two paragraphs of page 2 of the Response, should have been read as indicating that claims 15, 16 were rejected for the same reasons as noted in the rejections of claims 12, 13.

Conclusion

Art Unit: 2134

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
